

Ceremony
1952

20 May 1952

Dear Miss Burton:

I quite understand what you did in the case of the tea card for one of the members of the National Woman's Party. Frankly, very few names were indicated to us for the procession and tea, when we asked for lists, and we had to use our own discretion, as acceptances were received, in the issuance of these cards. Where we received an acceptance from an Officer, or from someone who was coming a great distance, we extended the courtesy, despite the fact that the name was not indicated on the list for such attention. Rather than have anyone hurt, I am happy that you used your judgment in the use of the tea card.

It was good of you to say that you enjoyed the ceremony, and I hope that the other members of the Party did as well.

Cordially yours,

Bertha L. Lyons (Mrs.N.)
